

Spring (1st half term)

Thursday 8th, 15th, 22nd, 29th January

Thursday 5th, 12th February

Spring(2nd half term)

Thursday 26th February

Thursday 5th, 12th, 19th, 26th March

The total cost for the eleven week club will be **£55** (£5 per week).

*This payment may be made half-termly (£30 + £25), or for the full term (£55), whichever is preferred.

*(Payment may also be made on a weekly basis for the first couple of sessions if your child is new to the club, ensuring your child is happy with it).

*Payments will be refunded for any missed sessions due to illness or holidays. If your child wishes to leave the club at any time, any payments already made will also be refunded.

Please send payment into school in a labelled envelope, along with the permission and details slip below.

*Please note - payments may be made in cash or by **BACS**. Please let me know if you would like the account details.

**Children will be offered a small snack at the beginning of each session.*

Fun French

(11 weeks)

After School Club

(Year 3 and Year 4)

Spring Term 2026

St Andrew's C. of E. Primary School

Thursdays 3.30 pm - 4.30 pm

Hello Everyone,

'Fun French' Club will once again be returning for 11 weeks this spring term for Year 3 and Year 4 pupils.

Our key themes for the term will be -

All About Me (ongoing)

Numbers and number operations (ongoing)

New Year and Easter traditions in France

The Weather

Birthday Celebrations (L'Anniversaire d'Henri - big book)

'Fun French' Club sessions are centred around basic language learning and language relationships; all of which will be developed through a variety of fun and interactive games, drama, rhymes and songs, creative activities, food tasting and outdoor games and activities (weather permitting!).

The children will also find out more about France, along with its culture and traditions.

If you would like any further information, please contact me:

Liz Davey on 07980317739

Learning a second language in the primary years helps children to develop crucial linguistic and cognitive thinking skills.

It also improves general concentration and listening skills; along with supporting learning of the mother tongue through enhancing the clarity of speech sounds and mimicry of pronunciation; as well as developing an understanding of language relationships.

Very importantly too; it helps to develop children's curiosity about the world and different cultures.
